

Series 400: PROVIDEA PRESENCE BOARDROOM SYSTEM

Providea Presence™ Series 400: A Packaged Large Room System for Your HD Video Conferencing Needs
The Providea Presence Series 400 will propel your experience with HD video conferencing, audio conferencing, collaboration and laptop presentation capability to exciting new levels. This packaged room solution offers all the advantages of a robust custom AV build-out, but without the lengthy downtime associated with most projects of this scope. And it's available at a very attractive price point.

>> Providea Boardroom Solution:

The Providea Presence Series 400 features the Providea Boardroom Solution, a custom touch-screen interface, ceiling speakers, table microphones and dual wall-mounted displays. We fine-tune all audio and video elements according to the specifications of your boardroom or conference room, creating the optimal participant experience.

>> Providea Control™:

Providea Control combines custom touch-panel technology with a Providea-designed feature set that

is highly functional, cost-effective and simple to use. Branded with your company identity, Providea Control is a great alternative to the confusing, multiple-page touch panels typically programmed with only your “power users” in mind.

>> And more...

The Providea Presence Series 400 also includes training, installation and one-year service coverage along with our unparalleled industry experience and expertise.
